Summary

Senior iOS Engineer with 8+ years of experience building and maintaining iOS applications using Swift, SwiftUI, UIKit, React Native and modern Apple frameworks. Specialized in end-to-end product development including UX/UI design, architecture, App Store deployment, analytics, subscription-based apps, and AI-powered mobile features.

Experienced working across fintech, productivity, and consumer applications, with strong expertise in scalable UI systems, performance optimization, accessibility, and user-centered design. Passionate about building polished mobile experiences that combine strong engineering with intuitive product thinking.

Experience

Senior iOS Engineer & UX/UI Designer, Houlak
Montevideo, Uruguay
2022-2026

- Design and develop iOS applications using Swift, SwiftUI, UIKit, Combine, and third-party SDKs, as well as hybrid apps using React Native for fintech enterprises.

- Lead end-to-end feature development including UX research, UI design, implementation, testing, App Store releases, and post-launch maintenance.

- Collaborate closely with backend engineers, product managers, and stakeholders in Agile environments, as well as junior iOS Developers training and mentoring.

- Work on performance optimization, analytics integration, accessibility improvements, and subscription-based features. Implemented modern mobile experiences focused on usability, responsiveness, and polished interactions.

iOS Contractor & Project Manager
Montevideo, Uruguay
2018-Present

- Manage and deliver native and hybrid iOS application projects from concept to App Store release, handling product planning, UX/UI design, architecture, development, testing, and maintenance.

- Work independently across both technical and product responsibilities, ensuring high-quality app delivery.
